MURDERED IN MEXICO.

nation of Leon M'L. Baldwi

Near Ventanas, Letters received from the Ventanas mines in Mexico convey particulas con-cerning the dastardly assassination of Leon McLeod Baldwin, a well known New Orleans, La citizen of this city, and reveal an incredible state of affairs even for Mexico.

The mines are located about one hundred and Early, who are in charge of the drawings, The mines are located about one hundred miles from Mazatlan, in the State of Durango, and are very valuable. Recently a band of outlaws appeared in the district, and now have things their own way. They openly state they intend to kill every foreigner in that were, as a rule, at med with bows and arrows, but a number of them had muzzle loading rifles. We had shot guns and muzzle loaders too.

BANKS of New Orleans, and the Tickets are signed by the President of an institution, whose cannot be ivised. Still more passages have been engraed on tombstones, and none but they killed a man named Smith, living only muzzle loaders too.

Old and well loved bymns aband in phrases taken from the old last June, and Mr. Baldwid was their last. The circumstance of his assassi-nation are as follows:

on the 19th of August he started to inspect one of the group of mines of which he was suprintentent, known as the Valenciana. He arrived about 10 a. m., and just as he alighted from his mule two men, armed with Winchester rifles, arose from behind some rocks and fired at him, one shot striking him in the right shoulder, passing through it, and breaking the shoulder blade, so that his right arm was rendered use. man in thworld who could withstand the charms of rue. Dudevant, better known as George Sai One day Liszt said to her, "Madame, E Anthony and I are not the only tol with his left hand, and ran into a assassins were afraid to follow him, but man went into the tunnel and told his tected.

On the forth she met a monk whom she had known. A few years before he had been out of the tunnel and mounted his mule, most to makes, he had fied to La Grande to lead, threatening the miners that if Chartreuse ad become a monk. She knew they followed them they would be shot. Shorily after the departure of the party him the mornt she met him and he knew her, and ene recognized the other's knowledge. "Why have you come tither?" he gasped. Heruick wit supplied a ready answer: "For love of you." "Impossible?" "Alax, yes, Fancoise, it is too true!" said she. "I cast you of I confest; but after you had more I found that I loved you better than my heard of him.

This murder occurred within two miles of the town of Ventanas. Although this band of outlaws have been operating around the town for several months, and their haunts are very well known to the authorities and soldiers, very little exertion is made to estoh them. In fact the scoundrels go into the town and openly boat of there murderous deeds.

Mr Baldwin was indentified with the mining interest of this coast for the past twelve years. In 1875 he was Superin tendent of the California Mill Com-pany at Virginia City and was Assistant Superintendent of the Justice mine. Previous to his departure for Mexico he was Assistant Assayer in the United States Mint of this city. He was also at one time owner of the Los Felix ranch, near the city of Los Angeles, and has a brother, General John M. Baldwin living in that city. He leaves a widow the daughter of the late Mrs Anna Key Turner and a young son about fifteen years old. Mr Baldwin was the son of Dr. John M. Baldwin, who was murdered by an Englishman, named Hetherington, in the pioneer days, who was afterward hanged by the Vigilance Committe, He was born in New Orleans, La. and was forty-five years old. He was a highly educated and pure-minded gentle man of many admirable traits of
